6th. Fortnightly Crop Report

Issued by Department of Agriculture, Edmonton, Saturday, June 28, 1924.

Growth of the new crop in practically all parts of the province has been retarded by the cool weather of the past fortnight, and in many districts the grain has been almost at the standstill. The past week, however, has seen the advent of warmer weather, and during the past five days the crops have been brought to the stage where more rain is necessary to maintain healthy growth. This feature of the situation is emphasized in nearly all reports received, in some districts the need of moisture being urgent.

The south-western part of the province has been favored with an abundance of rain during the past fortnight, and is to-day showing the most satisfactory conditions with respect to the growing crops. South of Calgary to the international border rain has been general in nearly every locality.

The south-eastern part of the province is still in much need of rain, only local showers having visited this territory in the past two weeks.

In the central and northern parts of the province the grain, though greatly retarded by the backward weather, is showing a fairly healthy growth, and has been considerably benefited by the belated warm weather, but is in need of rain at this date. General rains will be needed over most of this territory within the next week if the grain is to continue satisfactory progress. The crops in the Grande Prairie and Peace River districts show some improvement since last report, owing to showers of rain which visited these districts in that period, but further rains will be needed shortly.

Frost occurred on several occasions since last report, and grain in some districts suffered slightly. Grasshoppers have shown up seriously in some localities, but are well under control, and will cause little damage to grain.

The first cutting of alfalfa in the southern districts is now underway, and the crop appears to be satisfactory. Pasturage is rather poor on account of lack of moisture.

Extra Spesh-ul!

One clang of the fire bell aroused the town from its afternoon slumber shortly after 3 o'clock on Sunday, and the successive clangs stirred the inhabitants into instant activity. An alarm phoned in by S.E. Trowin, was promptly responded to, and the chemical outfit rushed to "The Lion Turner's Club," a juvenile establishment on Second Avenue, only to find that residents in the vicinity had subdued the blaze with buckets of water. Wall paper in the "club" was ignited when a burning candle succumbed to the heat and leaned over against the wall. The alarm was raised when smoke was observed rising from the roof of the building.

The hot and fatiguing run made by members of the fire brigade last Sunday afternoon, while drawing the chemical outfit to the fire, proved unnecessary; their efforts were nevertheless commendable. Quick action in the early stages in any blaze may be the means of preventing a serious conflagration.

Indications are not lacking that the British Empire Exhibition is fulfilling its mission in placing before the citizens of the British Isles the opportunities and developments of the Dominions overseas. In a letter recently received at Canadian Headquarters in Montreal from William Phillips, European manager of the system, he stated that attendance at the Canadian National pavilion at Wembley had passed the million mark, the total number of visitors up to June 7 being 1,012,000.

Make your preparations for the tenth annual Summer Fair, July 24-25.

Britain's Sea Power

Admiral Stresses Need of Maintaining Strength of Empire's Fleet

A warning to Canadians not to forget the value of sea power was voiced by Vice-Admiral Sir Frederick Field, of His Majesty's special service squadron, during an address at a banquet given in his honor at Victoria.

The people were sick of spending money, he admitted; ask of high taxation and debt; and in thinking of these things often forgot the great truth about sea power which applied to the British Empire and its integrity more than to any other power in the world. "It would be imperative on my part to attempt to influence this Dominion," Sir Frederick said, "but I feel justified in asking Canada if she thinks she is safe, if her overseas trade is safe, and will be safe in war time."

An Attraction At Wembley

Visitors Can See Many Articles Made From Milk

One of the attractions at Wembley is a dairy maid! who shows women visitors how to transform milk into umbrellas, handbags, unbreakable buttons, artistic combs, bowls, and a score of other articles which few people suspect could come from milk.

The milk has first to go through a process whereby the casing is extracted and dried. Casing is the basic product of milk. Some remarkable little machines which effect this machine transformation of milk are shown, and visitors are able to see a cow milked, and later, if they desire, handle the buttons that a short time before were warm milk.

Fine tissue paper is about the 120th part of an inch thick.

What Does This Trade Mark Mean?

You will see this shield-shaped trade mark in hardware stores everywhere. You won't see it on your refrigerator. It goes only on household utensils of the highest quality, yet selling at moderate prices, because of the tremendous quantities sold each year.

Choose cooking and baking utensils that carry this trade mark. Choose **SMP Enamelled Ware**, with its very hard, smooth surface. Heats faster, cleans easier, imparts no metallic flavor, causes no dangerous acid reaction. Ask for

SMP Enamelled WARE

Three finishes: Pearl Ware, two coats of pearl-grey enamel inside and out. Diamond Ware, three coats, light blue and white outside, white lining. Crystal Ware, three coats, pure white inside and out, with Royal Blue piping.

WORLD HAPPENINGS BRIEFLY TOLD

British Columbia's stone fruit crop this year will be only about half of last year's crop, according to estimation issued by the department of agriculture.

Frederick Whelen, touring Canada on behalf of the League of Nations, addressed some 3,000 people at an open air meeting in Stanley Park, Vancouver.

Salit, Leonide, flying at Isere, France, established a new world's flying record for 500 kilometres (about 300 miles). Leonide's time was 1 hour, 37 minutes, 49 seconds.

Rumana at the present time owes Canada \$2,949,220; Greece owes Canada \$3,742,724. Hon. J. A. Robb, acting minister of finance, informed the House recently.

General James Barry Heriot, leader of the Nationalist party, which was victorious in the recent Federal elections, has accepted the premiership of South Africa, succeeding General Jan Smuts.

Thousands of railway workers were treated to the spectacle of the King of England running his own train at Swindon recently, and while the King was playing engineer, the Queen was on duty as lookout.

Caught between the steamer Midland Prince and the dock as she was hauled to her moorings at "C" elevator, at the C.P.R. elevators, Port William, Michael Fuchok, 11 years old, was crushed to death.

U.S. Government receipts for the fiscal year ending March 30 exceeded expenses by more than five hundred million dollars, Secretary Mellon announced. The tax reduction programme submitted by Mr. Mellon was based on an estimated surplus of \$225,000,000.

Sour Stomach Risings Subdued by "Nervine"

A Few Drops Bring Relief

The wonderful relief you get from Nervine for all your nervous troubles. Take it in sweetened water, and almost immediately you feel better. Nervine brings up the gas caused by fermenting food, and relieves the stomach. When, with or without relief, you feel better, you are cured. For general use in the family, for emergency fits, always keep handy Nervine on hand. 35c at all dealers.

Boys' and Girls' Swine Clubs

C.P.R. to Donate Championship Cup, Medals and a Free Trip to Toronto

The Provincial and Dominion Governments have co-operatively organized the Boys' and Girls' Swine Clubs throughout the three prairie provinces to stimulate interest in raising market hogs. The boys and girls who to market their produce. The Canadian Pacific Railway announces that to aid in this work it will give a championship cup to each of the three clubs winning these Boys' and Girls' Swine Club competitions in Manitoba, Saskatchewan, and Alberta, and these trophies will be for annual competition. The individual members of the winning teams, however, will be given medals as their own property.

The trophies and the medals will be given irrespective of whether the winning team live on C.P.R. lines or not, but any winning team that is resident on a C.P.R. line will have the additional treat of a trip to the great Royal show at Toronto, 1924, at the company's expense.

If any club should win one of the trophies (three years in succession it becomes the permanent property of the club). Each team shall consist of two boys, or a brother and sister, or two girls, between the ages of 10 and 21 by September 1, 1924.

All rules and regulations covering the swine club as organized by the extension service in each province, must be observed, and all teams competing must take part in a judging competition and give a demonstration at a central point or points as decided by the committee in charge in each province and these competitions will be held at or near the time the carloads of hogs raised by the clubs are marketed.

The following is the score on which clubs will be tested. Thirty points for general proficiency of the whole club in swine raising; 20 points for the team's hog judging; 30 points for the quality of the two hogs raised by members of the team and 20 points for a 20-minute demonstration in Willshire bacon.

All Straight

Doctor—Did that medicine straighten your husband out all right?"

"Yes, we buried him yesterday."

Minard's Liniment, the Athlete's Remedy

Women you envy have only this secret

You, too, may employ it to keep the radiance and bloom of youthful skin

Radiant, with the charm of youth still there, millions of clever women are admired—and envied—today.

Only this simple method—which is for you, too. To give you, as well, the charm you envy in them.

For one week do this
Cleanse the skin regularly, as follows:

Value and
efficiency
produce 25c
quality for
10c

PALMOLIVE

thorities say, to keep your complexion lovely, radiant, youthful. But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the dry pores. Rinse—repeat the washing. Then rinse again.

Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The simple, correct way
You cannot find a more effective beauty treatment, because Palmolive Soap is blended of rare palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive, so that thousands now use Palmolive for the bath.

Make sure that you get Palmolive—which is never sold unwrapped. All dealers have it. Get it, and try for one week this simplest of all treatments. See how delightfully and how quickly it benefits your skin.

THE PALMOLIVE COMPANY OF CANADA,

Winnipeg Toronto Montreal

Palm and olive oils—making also—give Palmolive's green color to Palmolive Soap

Sunlight and Health

Statistics Show That Too Much Sunlight Is Conducive to High Mortality Rate

The prevalent idea that we cannot have too much sunshine for health is challenged by W. H. Dines, F.R.S., who points out in *The Nation* that many well-known statistical facts are opposed to this belief. In European countries the death-rate is highest in the south and lowest in the north, and the British Isles and the Scandinavian countries are especially favored. Therefore the duration of possible sunshine is nearly the same in both halves, the intensity is far greater in the south. English records for 1921 to 1923 being at hand, comparison was made of the summer sunshine and summer death-rate of the different years, and this showed that the four most sunless summers (1888, 1894, 1910 and 1912) all had an exceptionally low death-rate, while the sunniest summers (1877, 1899 and 1911) had more than the average number of deaths. It is contended that the fact that ultra-violet rays are helpful in certain diseases does not prove that an excess of sunlight is generally beneficial. It is thought to be hardly credible that sunlight alone should be prejudicial to health and the explanation is suggested that it is the heat which sunlight usually is associated, that is harmful.

Thinks Swearing All Right

Yes, proving the provocation equals the offense of Jones stopping on Smith's sore corns. Far better to use "Painum" Painless Corn Extract. It is the only medicine for corns. No corn can last if "Painum" is applied. Remove a "Painum," 25c every where.

Pacific Coast Fisheries

During the first three months of this year the Canadian fisheries on the Pacific coast produced 75,350 pounds of fish food, valued at \$17,950,000. In quantities, the largest catch was herring. Six hundred and fifty-seven thousand pounds of these fish were landed during the period.

Soft corns are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

The ratio of males to females is higher for the farm population than it is for the total population except in three states in America.

PIMPLES SPREAD OVER FOREHEAD

Infamed, Itched
Badly. Cuticura Healed.

"My nose began with a breaking out of pimples at the edge of my hair which soon spread to my forehead. At first the pimples were very small but became larger and were very itchy. I tried a number of things but they did not help. I then used Cuticura for all my purposes. It cured me in two weeks. I am now clear and healthy. Miss Georgia McMillan, 1011 Summit Blvd., Spokane, Wash., July 10, 1923.

Use Cuticura for all your purposes. Remove free from by mail. Address: London Dispensary, 1011 Summit Blvd., Spokane, Wash. Try our new Shaving Stick.

SUNDAY SCHOOL LESSON

JULY 6

THE BIRTH OF CHRIST

Golden Text—There is born to you this day in the City of David a Savior, who is Christ the Lord. Luke 2:11. Lesson—Luke 2:7-20. Reference Reading—Isaiah 11:1-5. Memory Verse—Luke 15:1-3.

The Text Explained and Illumined

I. The Census Brings Mary and Joseph to Bethlehem, verse 1-5. For the purpose of a census, ordered by the Emperor Augustus, while Quirinius was governor of Syria, all the people were obliged to go to their "own city." There was no room for Mary and Joseph in the inn, so they went to a manger. "And she gave birth to her first-born son." The manger was the place where the oxen and asses were fed.

So that the poorest here might cry, "My Lord was as lowly born as I." (Phoebe Carey).

Christ was merely crowded out of the manger, a fact that there was no room in the inn. And without any more to say than "You are pre-occupied. Every chamber of the soul is so filled with iniquities that there is no room for Christ. There is little, if any, time for him. And this is so simply because your time is demanded by a thousand other things, your mind is crowded with a thousand other directions, and your life is crowded to the full with possessions and pleasures, until, strange though it may seem, there is no room for the Savior except in the stable" (J. Stuart Holden).

Time has tested it—Dr. Thomas' Electric Oil has been on the market upwards of 60 years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. If it were double the price it would be a cheap liniment.

Films for the Future

Recent Invention Will Preserve Modern Pictures For Centuries
People who inhabit the earth five thousand years from now may have a chance to look back through the centuries and see just how we ran our industries, manufactured our products in the year 1924. They will see us in the movies. The possibility that motion pictures of 1924 workmanship can be handed down throughout the ages comes through the work of a man in Chicago, who has developed a preserving process to the point at which it is ready to store a collection of films in the Smithsonian institution at Washington, D.C. The films will be sealed in a preserving vault, with a stipulation that it remain sealed for five thousand years. Scenes from the past can be handed down through the centuries and machine shops will be included in the collection.

Golden eagles eat many small rodents and larger animals such as fawns and lambs.

Asbestos has been found in Hungary, Russia, New South Wales, New Zealand and Cape Colony.

The Great Pyramid in Egypt was built 4,700 years before Christ.

Minard's Liniment for Falling Out of Hair

Big Building Programme

Saskatchewan Co-operative Elevator Co. Plan a Busy Season

If present plans are carried out this year will be one of the biggest building years for the Saskatchewan Co-operative Elevator Company since the pre-war period. An unofficial estimate of the proposed building programme is \$500,000. Work on new elevators has been started in eight points in the province, and organization is under way at various other places. If the building programme is completed the company will own and operate four hundred and thirty elevators. The capacity will be increased by 1,200,000 bushels.

Minard's Liniment for Distemper

Export of Motor Cars

Canada exported 7,000 motor cars in 1922, almost double the total reached in any previous year, and almost half the total of car shipments from the United States. Total automobile shipments from the two countries reached \$21,446 cars, which was an increase of 105,422 cars over the previous year's record.

tained at the Fire Hall.

LEGAL NOTICES

MORTGAGE SALE OF VALUABLE
FARM PROPERTY

By virtue of the Powers of Sale pro-
vided by "The Land Titles Act" there
will be offered for sale by public auc-
tion at the Post Office in the Village
of Sibbald, Alberta, on Saturday,
July 10, 1924, at 2.30 p.m., the following
property, namely:

The South-East Quarter of
Section Five (5), Township
Thirty (30), Range Two (2),
West of the Fourth Meridian,
in the Province of Alberta,
containing 160 acres, more or
less reserving mines and min-
erals.

Terms of sale to be ten per cent. (10
cash at the time of the sale and the
balance according to the terms and
conditions to be made known at the
time of sale or upon application to
the vendor's solicitors. The above
property will be offered for sale sub-
ject to a sealed reserved bid and free
from all encumbrances save taxes for
the current year.

The Vendor is informed that there
is a house 14x20, a granary and a barn
on the said lands, of which 90
acres are broken. The soil is
black loam with clay subsoil
and it is partly fenced with two wires.

Jack Aylesworth, received
word to-day that he has been
awarded a First Class certificate
in connection with his recent
Normal School examinations.
Congratulations!

Miss O'Brien, who taught
grades VI, VII and VIII at
Oyen School, during the past
half-year, left last Saturday for
Edmonton.

Miss M. McIvor, left last Sat-
urday for Calgary.

Excel and Landline Sports
Days were celebrated yesterday.
Each place was well patronized
and in spite of intensely hot
weather, everyone appeared to
enjoy the day. It seems a pity
that the two handbills could not
get together and agree to take
Dominion Day alternate years
and avoid a splitting of the
crowd of holiday makers.

Buy Your Tickets Locally

When making a trip to some
distant point, you should buy
your railway ticket at the sta-
tion here. When you go to the
city to buy your ticket, you are
out your fare and expenses and
pay the same rate as you would
here.

Buy here. Save this extra cost
and increase Oyen Business.

If you contemplate a trip to
the Old Country, or if you pur-
pose bringing friends from the
Old Country, all arrangements
can be made with the local
Canadian National Station
Agent, who represents all steam-
ship companies.

At the Elevators.
